AHMAD AZHARUDDIN GHOFUR

ghofurgo07@gmail.com | +62 822-2568-8767 | www.linkedin.com/in/ahmadghofur | https://ghofur35.github.io

I am an undergraduate student majoring in Information Systems and Technology at Universitas Negeri Jakarta (UNJ). I have a strong interest in IT, particularly IT support and data analysis. I have experience in data analysis, especially in the business field. This includes extracting data from databases, creating queries to manage data output files, and creating visualizations such as dashboards and diagrams. I'm also passionate about UI/UX design and use tools like Figma and Canva. Additionally, I have worked on several UI/UX projects, including those for university, volunteer work, and professional jobs. I have demonstrated responsibility by serving as the treasurer of the Finance Department in the STI student council.
